# The *FastCap*® Difference

FastCap was founded in 1997 by Paul Akers, 20-year veteran in the cabinet-making/woodworking industry. One day, while Paul was building some cabinets, he got an idea for a self-adhesive screw cap cover and the Fastcap was born.

Today FastCap is a product development company that specializes in making innovative time-saving products for the woodworking professional. FastCap has over 2,800 distributors in 40 countries worldwide and launches 10 to 20 new products per year.

At its core, FastCap is a Lean company. We are determined to continuously improve everything, everyday. Our products reflect the idea that things can be improved and the best ideas come from the shop floor. Did you know that most of our ideas come from people just like you? If you have an idea or a better way of doing something, email Paul directly at [paul@fastcap.com](mailto:paul@fastcap.com)! To learn more visit us at [www.fastcap.com](http://www.fastcap.com) and click on the idea tab.

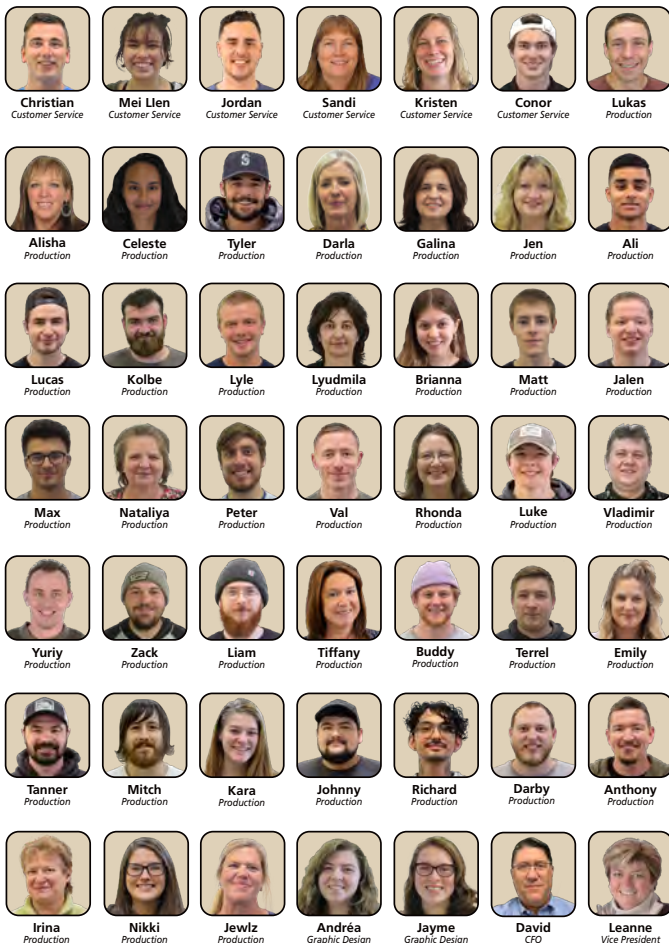

At the end of the day, FastCap's products are about efficiency, increasing productivity and making work fun. We are determined to satisfy you 100%. If we fall short we want to hear about it; that is how we improve and there is no end to improvement.

Thanks

Paul Akers,  
President

# 3 Way Clamp & 3 Way Clamp Lock

The 3 Way Clamp is a combination of the usual spring clamp with an additional spring that applies a third direction of pressure. The clamp has approximately 30 lbs of clamping pressure. The 3 Way Clamp Lock now has the ease of a spring clamp and the hold power of a screw clamp. Easily screw by hand or use a drill driver to lock it in tight.

### Features...

- Non-marring rubber tips
- Spring clamp and edge clamp in one
- Approx. 30 lbs of edge pressure

### Great For...

- All types of edge banding
- General clamping purposes
- Straight lines with no hassle

3 Carbon Steel  
Blades

The pneumatic Quad Trimmer with Carbon Steel or Tungsten Carbide Blades makes trimming edgebanding quick and easy! With a comfortable and ergonomic design, it trims both sides of the edgebanding in just one pass. The Tri Trimmer allows you to get tight into the corners when trimming veneers and edgebanding.

### Features...

- No springs, all pneumatic
- Cuts forwards and backwards
- Cuts both sides at once
- Cuts 1/2" to 1-1/4"

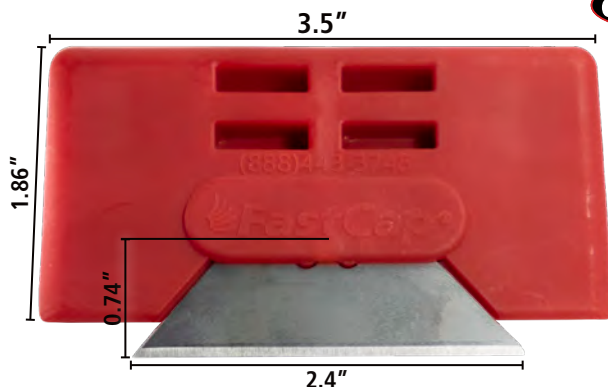

### Great for...

- Edgebanding
- Wood veneer (watch the video)
- Materials up to .025"
- Refacing cabinets

## Quick-N-Easy Edge Trimmer

Our simplest edgeband trimmer yet! Combining an ergonomic housing and a standard utility blade, the Quick-N-Easy Edge Trimmer is perfect for trimming around a radius or other odd shapes. The magnet in the back securely holds the blade just where you need it and makes swapping out blades fast.

### Features...

- Ergonomic housing
- Magnet for keeping blade in place
- Uses standard utility blades

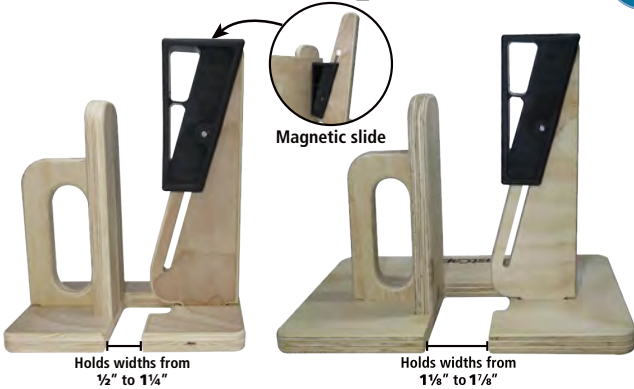

### Great For...

- Easily trimming any size radius
- Trimming Fastedge & edge banding
- Quick trim jobs

# Fastedge Clamp

Approx. 5" square

Comes with four 1-1/8" PowerHead Screws

Easy installation onto the work bench using PowerHead Screws.

3/4" wide flex track allows you to fine-tune the tension by raising or lowering the outside feet

Applying edgebanding to 3/4" shelves can be a real pain. The Fastedge Clamp securely holds your shelf in place allowing you to use both hands to install your peel & stick Fastedge edgebanding.

## Features...

- Easy installation
- Adjustable tension
- Non-marring and durable

## Great for...

- Applying Fastedge
- Applying SpeedTape
- Cabinet assembly

Description	Part Number	Price
Fastedge Clamp 2 pack	FE-CLAMP	\$13.25

# De-Curl

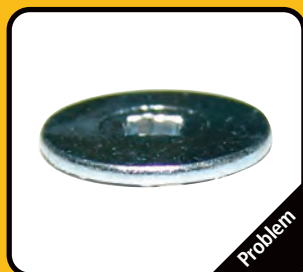

Fastedge comes on a roll and the natural curl or memory should be removed. The new De-Curl quickly removes the curl out of the edgebanding. It is small, light weight, and easy to use. Simply pull the banding through the slot at a slight angle and your edgebanding will lay flat, making it easier to install. Designed by a cabinet maker. Another great example of stopping the struggle.

- Straighten edgebanding
- Ergonomic design
- Cabinetmakers
- Carpenters

There are 3 sizes of carbide cutters with an 1/8" pilot bit. All 3 bit cutters are interchangeable with the FlushMount housing.

### Available Sizes

The FlushMount Drill Bit System incorporates a unique ball bearing stop collar that controls the recess depth of the drill and allows the stop collar to stop spinning when it comes in contact with the surface.

### Features...

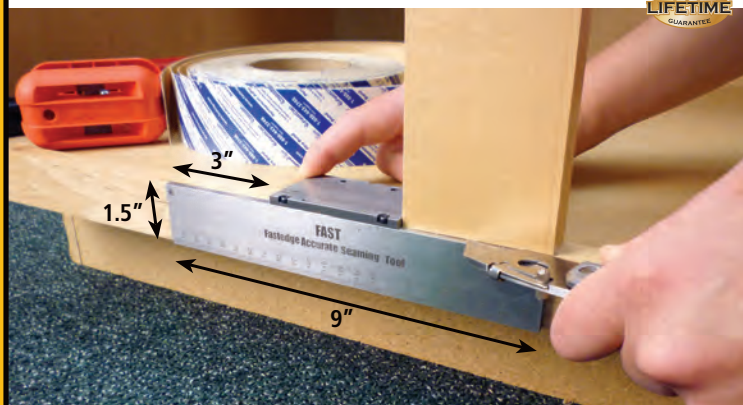

- Includes a 9/16" carbide cutter
- Micro depth adjustment
- Adjustable 1/8" pilot bit

### Great for...

- Countersinking Fastcaps
- Countersinking PowerHead Screws
- Recessing magnets

Brad nailing nightmare

The 2P-10 solution!

2P = 2 parts

10 = 10 seconds to bond!

Breaks the wood, not the glue

Rubber Toughened 2P-10

## 2P-10 Adhesive

- Excellent for filling micro cracks
- Zero glue line

- For use on porous surfaces such as particle board

- For use on smooth surfaces such as laminate
- Excellent for filling medium cracks

Most Popular

- Will not run, great for vertical surfaces
- All purpose application

- 2P-10 Solo Kit
- 2.25oz Thick
- 12oz Activator

**WARNING!** This product could expose you to chemicals including N,N-dimethyl-p-toluidine which are known to the state of California to cause cancer or birth defects or other reproductive harm. For more information visit [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov)

- 2P-10 Kit
- 2.25oz Thin, Med, Thick & Jël
- 2oz Activator and Debonder
- 5 Microtips, 1 Pump Spray & 2 Brushes

2P-10 is a two-part ten-second adhesive. Just apply the adhesive, then spray the activator and stick it together for a strong, permanent bond. Its greatest benefits are its speed and strength.

### Features...

- Easy to sand within 60 sec.
- Dries crystal clear
- 4000 PSI tensile & sheer

### Rubber Toughened...

- Thick & Jël viscosity
- Rubber provides elasticity to joints

## Sealant Saver

Depending on the type of caulk, water or paint thinner will create an air-starved seal that will prevent caulk from drying out

Screw Sealant Saver into place

Fill Sealant Saver tube to the top with water or paint thinner

Insert caulking tube for continued sealant use

The Sealant Saver was developed by a cabinet maker to prevent caulking tubes from drying out. Simply fill the tube with water and place open caulking tube down into the Sealant Saver tube. The Sealant Saver creates an air-starved seal that prevents caulk or silicones from drying out. Easily mount to any surface with some screws.

## FASTenon

The FASTenon is another new innovative product, from FastCap, that allows you to pull your joints together without clamps. The barbs bite into your material; holding your work piece firmly together. Add a little glue inside each joint and it's even stronger. Also great for aligning components when assembling. Developed by a cabinet maker for cabinet makers. The FASTenon will change the way you build.

### Features...

- Barbs prevent joint from loosening
- Glue runners for a tighter joint
- Made out of our durable Nylamax

Inventor, Steve Hawbaker

### Great For...

- Use in place of wood dominos
- Frames with hidden fasteners
- Panel joints

Always know where tools belong

# GPS Kit & Tape

**3/4" x 59' TAPE**

**9/16" CAPS**

**3/8" CAPS**

The GPS Kit and Tape allows you to quickly identify tools by department or area. The color of the tape and caps allow you to mark any shaped tool quickly and easily! Just wrap it in tape, or stick a dot on it, depending on the tool's shape. Make it fast and easy to determine which department tools belong to e.g., wood shop (red), metal shop (yellow). Everything gets put back with no struggle, questions, or missing tools!

## Features...

# Get hooked on Lean!

Read about Paul's Lean journeys and how he applied these principles to his business, health, travel, relationships, and everyday life.

I promise this will not be an intellectual exercise. No psychobabble. I don't understand it and it never helps me anyway. Rather, this is the perspective of an average guy who happens to be in love with Lean and fixing what bugs him. So if simple and practical is your preference, you're in luck! It is for me as well. If you have a modicum of curiosity and you want to see how I do life better, then Lean Life is the right book for you.

You don't just learn this and then become perfect and precise in one fell swoop. It is a lifelong journey. There will still be mountains of sloppiness and waste everywhere in everything you do. But what is important is you begin the journey today. When you start being more thoughtful and precise in everything you do, you become a better steward of the resources you have been given. Remember, it is not about perfection. It is about starting the journey to perfection. This is the joy I experience every day, knowing that I am more thoughtful of the gifts that I have been given. Being wasteful benefits no one, but good thinking benefits everyone.

Think all the talk about Lean is a bit boring and all about charts and graphs? Read this lean book and be inspired by how easy and fun it can be. No flow charts or graphs, just the real life journey of one company and the astounding results Lean thinking can produce. Take a few hours, read 2 Second Lean and change your life!

If I were to summarize my entire book in one word it would be "Ferrari." The secret to excellent health-the answer-is to treat your body like you would treat a Ferrari. A Ferrari is the archetype of a sports car, one of the most precise and high-performance machines ever made. It is exotic fast agile and beautiful. If you take the same care of your body as you would a Ferrari-using only the best fuel and regularly taking it to the best mechanic for maintenance-your body will give you ten times what you put into it, for the duration of your life. So ask yourself, "Do I treat my body like a Ferrari or a Pinto?"

As you start this book, I want you to understand the two main parts of my Lean Travel philosophy. First, what you give in the travel experience will have a profound impact on how much you enjoy it. Second, the less you bring and the lighter you travel, the more you will be able to feel and adapt to the fantastic trade winds of the travel experience. So travel with a full heart and light suitcase.
