QR CODES

Scan the QR Code for more details!

Berenson is using QR codes on cabinet hardware display boards and catalogs, connecting customers with our website and instant access to up-to-date information.

These QR codes can be scanned using an online QR code scanner or app on a smartphone or tablet. (Please note the camera on some smartphones can also read QR codes).

You can find QR codes throughout this catalog. Scanning them will bring you to pages on our website with additional information on the subject featured.

QR codes on our display boards will bring up a convenient-to-use page on our website, with **parts from the collection(s) featured on the board grouped by CC length**. This page is just a click away and offers information on all parts in the collection, including those not on the display board.

QR Code stickers are available for your existing Berenson boards. **Our sticker sheet, 0175-STKR-01**, contains a sticker for every Berenson board labeled with the collection name and display board part number for your convenience.

Order yours today by emailing Orders@BerensonHardware.com

DISPLAY BOARD OPTIONS

We offer display boards with and without printed part numbers. You can tell which is which based on the part number for the board itself.

Customers can request the type of display board that's best for their business.

Display boards measure 11 13/16in. x 15 13/16in. x 1/8in.

-03 = NO PART NUMBERS

0292-7000-03-G • No part numbers printed on front

-05 = PART NUMBERS

0292-7000-05-G • Part numbers printed on front

PLANOGRAM STICKERS (POG)

Additional part information can be found on the Planogram (POG) sticker located on the back of Berenson and R. Christensen by Berenson display boards.

- Dots on the POG note the parts that are shown on the front of the board.

Info that can be found on the POG:
