BENEFITS

Appliance pulls are the key to tying your kitchen together with a harmonious appearance. These pulls are longer and wider cabinet pulls, designed to handle what regular hardware cannot.

They are a convenient choice for tall pantry doors or heavy and wide storage drawers that would otherwise need multiple knobs or pulls. Use them on appliances such as ovens and dishwashers to match the hardware of our cabinets for a streamlined design.

All of our appliance pulls have a 10-24 tap for a strong and secure fit.

Sizes include 256mm CC, 12in. CC, 320mm CC, 448mm CC, and 18in. CC.

INSTALLING DECORATIVE HARDWARE FOR THE FIRST TIME

When you have decided where you want your hardware placed, use a ruler or cabinet hardware template to mark the drilling locations.

You'll want the placement to be the same across all cabinets for a consistent look. Once all the locations are marked you are ready to use your 3/16in. drill bit and drill the holes.

TOOLS REQUIRED:

- ① Ruler or Cabinet Hardware Template
- ② Power Drill

Where you place your hardware on a cabinet is entirely up to you. You can see some traditional placement of hardware to the right.
