

PANTRY DRAWERS

Introducing the Multi Tiered
Base Pantry Drawer System by
Western Dovetail, Inc.

Made from Baltic Birch plywood
with clear finish, manufactured in
Vallejo, CA.

Dovetailed trays offer strength and
stability to create a smooth
operating unit that stays aligned
without rubbing or wobbling.

Top and bottom are fixed and
mount to 21" Blum TANDEM or
MOVENTO slides (not included).

Middle tray is adjustable using line
bored holes and pins that lock into
slots in the tray.

Simple modular construction allows
for use of any locking device
including side and depth adjustable
for full alignment control in every
direction.

4 stock sizes available for standard
base cabinets with minimum width
openings of:

6", 9", 10 1/2" and 12"

minimum 28" high opening,
minimum 22 1/2" interior cabinet
depth.

Introducing the new Pantry Drawer System from Western Dovetail.

Western Dovetail Base Pantry Drawers are a unique system is designed around Blum TANDEM and MOVENTO drawer slides. The advantage of using the Western Dovetail system is that no matter what configuration you choose, it is all the same as a standard dovetail drawer on a Blum slide. The only difference is that multiple drawers are combined to create a single multi-tiered pantry pull-out drawer. It's easy to add spice steps, knife blocks, or any other drawer inserts to create a custom specific purpose drawer. Western Dovetail Pantry drawers are a simple modular solution that is easy to install and can be used with most under-mount slides.

- All units come completely assembled and ready to install.
- All units are prepped for 21" full-extension Blum TANDEM and MOVENTO slides with soft-close BLUMOTION at both the top and bottom for a stable installation that wont wobble.
 - *Top slides are set at 22" above the bottom slide on 6", 9", and 10.5" units and on the 12" units the slides are set at 20" above the bottom slides.*
- Choice of Blum TANDEM or MOVENTO Locking Devices can be used.
 - *Side adjustable locking devices allow for easy lateral adjustment at both the top and bottom of the units*
 - *Depth adjustable locking devices are recommended for inset applications and are essential for vertical alignment adjustments.*
- Blum slides are **not** included in the package so you can choose whether to use standard or heavy duty models. And choose between MOVENTO or TANDEM
 - *Purchasing slides separately allows the customer to pay their price for the slides preventing double markup of slides by passing through multiple distributors.*
- Front and back panels are line bored for easy adjustment of movable trays.
 - *Special 5mm/3mm shelf pins are used to lock adjustable drawers into position*
- No rub bushings required!
- No brackets or hardware required for attachment to cabinet doors.
- All units can be used as stand alone pull-outs behind a door, or attached to a cabinet door as a pantry drawer unit.
- Can be used with overlay face frame cabinets with rear mounting brackets when opening matches listed minimum opening sizes.
 - *For cabinets with openings greater than listed sizes, Slides can be mounted to the bottom of the cabinet opening and a single slide can be mounted on the upper right side, or the slides can be shimmed out fit the opening if both slides are needed.*

Easy installation with one or two pairs of blum TANDEM or MOVENTO undermount drawer slides.

Uses standard 37mm setback

Top pair of slides is 22" above bottom pair for 6", 9", and 10 1/2" units.

12" wide units have more height on the top tier to allow for larger objects, so slides are set at 20" above the bottom pair.

Prefinished Baltic Birch Pantry Drawer Unit Installed

Hardware Placement

Optional Spice Steps

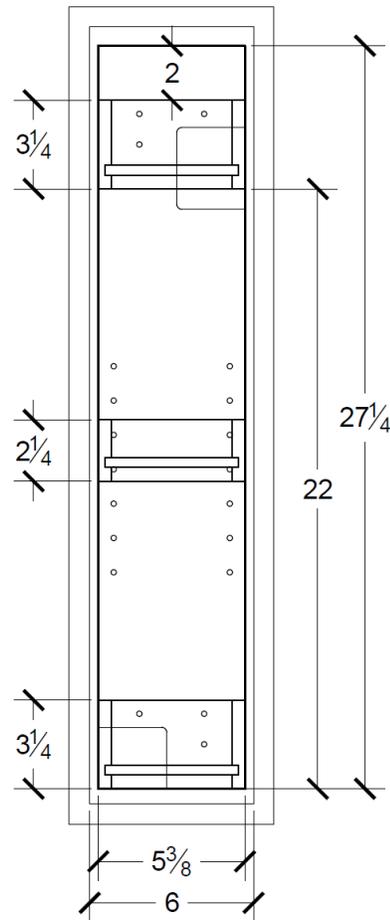

Add spice steps or knife blocks or any other drawer inserts and accessories to customize for your clients.
